

# MASTERCLASS IN 3D/4D OBGYN ULTRASONOGRAPHY

By International Society of Ultrasound in Obstetrics and Gynecology

SEPTEMBER 04, 2022 – ONLINE

ISUOG APPROVED  
COURSE

## Highlights Of The Course

- Explanatory slides
- Descriptive videos
- Inter session discussions
- Sessions of query clearance
- In Depth Learning
- ISUOG Certification

**1 DAY ONLINE COURSE - UAE TIMEZONE 3:00 pm to 7:30 pm**

## 3D Multi-Planar Mode - Understand the key Concepts

### Learning Objectives:

- Technical information about 3D Multi Planar Mode - How to set up the ultrasound Machine to acquire 3D Datasets
- Demonstration of clinical application for fetal scanning
- To learn how to use volume scanning to improve your scanning efficiency

## Tips and tricks for 3D Surface Mode Rendering

### Learning Objectives:

- Which knobs are essential to ensure optimal Imaging
- Understanding the basic principles related to Surface Mode
- To evaluate clinical situations where 3D surface mode scanning is helpful beyond the 2D examination

## Practical 3D/4D Pelvic Scanning in Gynaecology and ART:

### Learning Objectives:

- Clinical pelvic anatomy
- Accurate 2D Scanning
- Fundamental approach to 3D scanning of Pelvic Normal and Abnormal Anatomy
- Case scenarios 3D scanning
- Correlation of 2D to 3D scanning
- Correlation of 3D to MRI / Laparoscopic / Hysteroscopic Diagnosis

## COURSE FACULTY

**Prof. Dr. Karim Kalache**

Senior ISUOG Faculty  
QATAR

**Dr. Karunakar Marikinti**

Senior ISUOG Faculty  
UK

## REGISTRATION / QUERIES

- ✉ [info@aeccsmed.com](mailto:info@aeccsmed.com)
- 🌐 [www.aeccsmed.com/registration](http://www.aeccsmed.com/registration)
- ☎ +971 4 513 6400
- 📞 +971 52 352 0165 / +971 55 532 2030

## COURSE FEE

**AED 700 (USD 190)**

Special discount will be offered for a group of doctors.
