DIPLOMA IN GYNAECOLOGICAL ENDOSCOPY TRAINING - LAPAROSCOPY AND HYSTEROSCOPY

BY UNIVERSITATSKLINIKUM SCHLESWIG-HOLSTEIN, KIEL - GERMANY

SEPTEMBER 25 - 28, 2019 | DUBAI UAE

COURSE FEE
AED 9000 (USD 2450) + VAT
AED 500 Early bird discount until July 31, 2019

Early bird discount until July 31, 2019
Special discount will be offered for a group of doctors.
(Non-refundable fee for cancellation within 30 days of the course, 10% administrative charges will be deducted for earlier refund).

+971 55 532 2030 / +971 50 439 8837

This 4-day program shall be taught by trainers using dry and wet tissue conditions and live animal dissection in OT. We use real time training equipment and demonstrations of all essentials and laparoscopic procedure.

COURSE DIRECTORS
Prof. Liselotte Mettler
Dr. Meenu Agarwal
Dr. Sandesh Kade
Dr. Wael Sammur
Dr. J. S. Rajkumar

COURSE FACULTY

HIGHLIGHTS
- Lectures
- Video Session: Surgical Surprises
- Extensive Training on Simulators
- Pelvic Training Session
- Hystero - Training Session
- Dry and Wet Lab
COURSE CONTENTS

- Past present & future of endoscopic gynaecological surgery.
- Clinical anatomy of abdominal entry.
- Clinical anatomy of the inner abdomen.
- Clinical anatomy of the retroperitoneum.
- Endoscopic skill exercises, instruments and apparatuses.
- Suturing in endoscopic surgery.
- Pelvic floor and endoscopic surgery.
- Endoscopic sling operations in stress incontinence.
- Endoscopy and Infertility.
- New Strategies in IVF / ICSI / ET to improve outcome.
- Anaesthesia in endoscopic surgery.
- Tissue morcellation.
- Endoscopic hysterectomies in benign cases.
- Endoscopic adnexal surgery.
- Laparoscopic radical hysterectomies.
- Endometriosis & uterine fibroids & their stepwise treatment.
- Adhesion Prevention.
- Complications and unexpected situations.
- Robotics in Gynecological endoscopic surgery.

COURSE OBJECTIVES

- Clinical Anatomy.
- Understanding of philosophy and ergonomics of laparoscopic and hysteroscopic surgery.
- Completing Knowledge in Basic principals of energy sources.
- Gaining two handed proficiency and hand-eye-coordination for laparoscopic surgery.
- Familiarizing in needle holding, suturing and knot-tying.
- Review of indication, procedures and pitfalls in our endoscopic surgery.
- Management and understanding of possible complications.
MÖDÜL 2

PRACTICAL HANDS ON SESSIONS

- Apparatuses & instruments with practical hands on demonstration for laparoscopy and hysteroscopy.
- Suturing from A - Z on models and animal tissues i.e. chicken breasts, goat uteri and adnexas.
- Laparoscopic entry possibilities under vision and blind.
- Hand eye coordination exercises for left & right side on various modules.
- LASTT training module.
- Ectopic pregnancy module.
- Hysteroscopic exploration as diagnostic hysteroscopy on peppers / uterus model and operative hysteroscopy on animal bladders and hearts.
- Laparoscopic live surgery done by you on goats, (Module 2 only).

COURSE CONTENTS

- Clinical Anatomy as mother & father of endoscopic surgery.
- Steps of safe abdominal entry at laparoscopic surgery.
- Steps for successful diagnostic hysteroscopy.
- Steps for operative and virtual reality hysteroscopy.
- Steps for total laparoscopic hysterectomy (TLH).
- Steps for subtotal laparoscopic hysterectomy (SLH) and comparison to (TLH).
- Strategies in endoscopic surgery to improve the result of Artificial Reproductive Technologies (ART).
- Endometriosis surgery, a stepwise diagnostic and surgical endoscopic approach.
- Lateral pelvic side wall dissection.
- Steps in ureteric dissection.
- Steps in para-iliac & para-aortic lymphadenectomies.
- Steps in myoma surgery.
- Morcellation and the sarcoma threat.
- Presence and future of Robotic Surgery and as last sentence.
- Multiple choice questions exam.
COURSES EXECUTED WITH FULL SATISFACTION.
